METALS and ALLOYS

Volume XI—January, 1940 to June, 1940

SUBJECT INDEX

Aluminum Alloys, Beryllium and Some of Its.—C. B. Sawyer & B. Kjellgren. 163 June

Analysis, Metallurgical, The Mercury Cathode in.—A. E. Pavlish & John D. Sullivan. 56 Feb.

Annealing Copper for Automobile Radiators.—Edwin F. Cone. 141 May

Bearings, A Machine for Testing.—Earle A. Ryder. 69 Mar.

Beryllium and Some of Its Aluminum Alloys.—C. B. Sawyer & B. Kjellgren. 163 June

Brass and Copper, Tinning by Immersion.—John D. Sullivan & A. E. Pavlish. 131 May

Brazing, Electric Furnace, by Kelvinator.—E. W. Cunningham. 125 May

Casting Industries, Radiographic Development in the.—Charles W. Briggs. 1 Jan.

Copper and Brass, Tinning by Immersion.—John D. Sullivan & A. E. Pavlish. 131 May

Coppers, Some Oxygen-Free—Annealing and Drawing Characteristics.—Sidney Rolle & H. M. Schleicher. 82 Mar.

Correlated Abstract
Hydrogen, Flakes and Shatter Cracks—C. A. Zapffe & C. E. Sims. 145, 177 May, June

Corrosion, Pinhole, in Galvanized Watering Tanks.—W. M. Peirce & G. C. Bartells. 42 Feb.

Editorials
Bibliofilm—Jan.
German Theses—Jan.
Physics of Metallic Crystals—Feb.
Manganese—Feb.
The Size Effect in Fatigue—Mar.
New Blood—Apr.
Alloys of Iron—Apr.
Scrap Steel Exports—Apr.
The Specialist—May
Forty Plus—May
Wanted—Words—June

Effect of Phosphorus in 5 Per Cent Cr, 0.50 Mo Steel.—H. D. Newell & Z. E. Olzak. 106 Apr.

"18 and 8" and Related Stainless Steels.—Walter M. Mitchell. 14, 60, 88, 118 Jan., Feb., Mar., Apr.

Electric Furnace Brazing by Kelvinator.—E. W. Cunningham. 125 May

The Fatigue Endurance of Killed, Capped and Rimmed Steels.—J. F. McDowall. 27 Jan.

Fourdrinier Wire Industry, Metallurgical Control in the.—D. C. Dilley. 50, 77 Feb., Mar.

Galvanized Watering Tanks, Pinhole Corrosion in.—W. M. Peirce & G. C. Bartells. 42 Feb.

Grainal, Steels Treated with.—Jerome Strauss. 174 June

Hardenability of Molybdenum S. A. E. Steels.—Robert M. Parke & Alvin J. Herzig. 6 Jan.

High Hardenability and Toughness in Carbon and Low Alloy Steels.—Jerome Strauss. 174 June

Hydrogen, Flakes and Shatter Cracks (Cor. Abs.)—C. A. Zapffe & C. E. Sims. 145, 177 May, June

Induction Melting and Soldering in the Optical Industry.—W. J. Wrighton & T. C. Jarrett. 185 June

Lead, The Rolling and Extruding of, for Chemical Equipment.—Fred P. Peters. 112 Apr.

A Lead-Tin-Arsenic Wiping Solder.—Earle E. Schumacher & G. S. Phipps. 75 Mar.

Letters to the Editor
Failure of Low Carbon Steel Still Tubes. 123 Apr.
High Purity Lead and Zinc. 156 May
Electrolytic Cleaning. 156 May

A Machine for Testing Bearings.—Earle A. Ryder. 69 Mar.

Magnesium Alloys for Photoengraving.—Robert T. Wood. 33 Feb.

Melting and Heat Treating, Steel Foundry Progress in.—Edwin F. Cone. 99 Apr.

The Mercury Cathode in Metallurgical Analysis.—A. E. Pavlish & John D. Sullivan. 56 Feb.

Metallurgical Control in the Fourdrinier Wire Industry.—D. C. Dilley. 50, 77 Feb., Mar.

Metals and Alloys in Home Washing Machines.—Herbert Chase. 65 Mar.

Metals, Prehistoric.—Henry D. Hibbard. 168 June

———; Will Plastics Displace Them?—Herbert Chase. 157 June

Modern Rhodium Plating.—Joseph B. Kushner. 137 May

Northrup, Edwin Fitch; Appreciation of. 173 June

A Notable Plaque in Stainless Steel. 135 May

Open-Hearth Furnace, Basic, Trends in Refractories for the.—R. P. Heuer. 95, 152 Apr., May

Optical Industry, Induction Melting and Soldering in the.—W. J. Wrighton & T. C. Jarrett. 185 June

Phosphorus, Effect of, in 5 Per Cent Cr, 0.50 Mo Steel.—H. D. Newell & Z. E. Olzak. 106 Apr.

Photoengraving, Magnesium Alloys for.—Robert T. Wood. 33 Feb.

Pinhole Corrosion in Galvanized Watering Tanks.—W. M. Peirce & G. C. Bartells. 42 Feb.

Plastics; Will They Displace Metals?—Herbert Chase. 157 June

Prehistoric Metals.—Henry D. Hibbard. 168 June

Properties and Machinability of a Leaded Steel.—T. J. Dolan & B. R. Price. 20 Jan.

Radiators, Automobile, Annealing Copper for.—Edwin F. Cone. 141 May

Radiographic Development in the Casting Industries.—Charles W. Briggs. 1 Jan.

Rhodium Plating, Modern.—Joseph B. Kushner. 137 May

The Rolling and Extruding of Lead for Chemical Equipment,—Fred P. Peters. 112 Apr.

Silver in Stainless Steel. 18 Jan.

Some Oxygen-Free Coppers—Annealing and Drawing Characteristics.—Sidney Rolle & H. M. Schleicher. 82 Mar.

Stainless Steel in a Hollywood Film Processing Laboratory. (Pictorial) 45 Feb.

——— ———, A Notable Plaque in. 135 May

——— ———, Silver in. 18 Jan.

Stainless Steels, "18 and 8" and Related.—Walter M. Mitchell. 14, 60, 88, 118 Jan., Feb., Mar., Apr.

Steel, 5 Per Cent Cr, 0.50 Mo Steel, Effect of Phosphorus in.—H. D. Newell & Z. E. Olzak. 106 Apr.

Steel Foundry Progress in Melting and Heat Treating.—Edwin F. Cone. 99 Apr.

———; Hydrogen, Flakes and Shatter Cracks in (Cor. Abs.)—C. A. Zapffe & C. E. Sims. May, June 145, 177

———, Leaded, Properties and Machinability of a.—T. J. Dolan & B. R. Price. 20 Jan.

Steels, Carbon and Low Alloy, High Hardenability and Toughness in.—Jerome Strauss. 174 June

———, Killed, Capped and Rimmed, The Fatigue Endurance of.—J. F. McDowall. 27 Jan.

———, Molybdenum S. A. E., Hardenability of.—Robert M. Parke & Alvin J. Herzig. 6 Jan.

Solder, Wiping, A Lead-Tin-Arsenic.—Earle E. Schumacher & G. S. Phipps. 75 Mar.

Testing Machines—Old and Modern. 103 Apr.

Tinning Copper and Brass by Immersion.—John D. Sullivan & A. E. Pavlish. 131 May

Trends in Refractories for the Basic Open-Hearth Furnace.—R. P. Heuer. 95, 152 Apr., May

Washing Machines, Home, Metals and Alloys in.—Herbert Chase. 65 Mar.

Will Plastics Displace Metals?—Herbert Chase. 157 June

AUTHOR INDEX

Bartells, G. C. & Peirce, W. M.—Pinhole Corrosion in Galvanized Watering Tanks. 42 Feb.

Briggs, Charles W.—Radiographic Development in the Casting Industries. 1 Jan.
